## WOOD FLOORS

If you're finishing a new project or touching up an existing one, we can help you find a stain that coordinates with your Great Lakes Hardwood floors. We have worked to find a Minwax or Varathane stain that will closely coordinate with the Great Lakes Floors listed below. The suggested stains below are great for repairing minor scratches and blemishes, or touching up and staining raw wood. It is important to keep in mind that like any painting or staining project, always test a small, inconspicuous area before applying the color to the entire surface.

We hope this information is helpful, but should you have any additional questions please reach out to us at [info@greatlakeswoodfloors.com](mailto:info@greatlakeswoodfloors.com)

SKU	Color	Species	Platform	Minwax Stain Color Name	Varathane Stain Color Name
